

12^{ve} July 2017

High Industrial Lubricants & Liquids Corporation (HILL)

25/5, «Novy Mir» VIP-Town, Samal-3,
A25D0B6 (050059), Almaty
Kazakhstan

Reference: FASTROIL UTTO 10W-30

I am writing to confirm on behalf of Afton Chemical that HiTEC® 8703 is a high quality UTTO additive package, designed to meet the needs of modern Off-Highway machinery.

Hill Fastroil UTTO 10W-30 when blended with Afton Chemical's HiTEC® 8703 at 7.8% treat rate in combination with Hill SN 180 (Group I) and VHVI-4 (Group III) base stocks is suitable for use wherever the following specifications are recommended or referred:

- Allison C-4
- Caterpillar TO-2

This statement is invalidated if the formulation and/or blending procedure deviate from Afton Chemical's recommendations.

Yours Faithfully,

Rachel McNicoll
CTS Technologist
